Dear Sir:

Applicants appreciate the courtesy of the telephone interview conducted September 7, 2007 between the below identified Applicants' representative and the above-listed Examiner. The present paper is a summary of the same provided in accordance with MPEP §713.04.

- (1) Exhibit shown or demonstration conducted: No.
- (2) Identification of the claims discussed: 1, 2, 5, 10 and 11.
- (3) Identification of specific prior art discussed: None.
- (4) Agreement with respect to the claims was reached.
- (5) Substance of the Interview:

The Examiner proposed an Examiner's Amendment that essentially incorporated the subject matter of claims 2 and 5 and claim 11 into independent claims 1 and 10, respectively.

Applicants' representative agreed to the proposed Examiner's Amendment. The aforementioned Examiner's Amendment is attached to the Notice of Allowability mailed on or about 09/18/2007.

Applicants gratefully acknowledge the indication as to the allowance of the present application. Applicants do, however, not acquiesce to the reasons set out in the Statements of Reasons for Allowance. Particularly, the Examiner has indicated that the claims are allowed by importing an interpretation into the claims in relation to the prior art that may place an unwarranted limiting interpretation upon the claims. Such a characterization of the claims in view of the prior art would not properly take into account the applicant's claimed invention as reflected in the specification. Further, while applicant believes that the claims are allowable, applicant does not acquiesce that patentability resides only in the features, exactly as expressed in the claims, nor that each feature of the claims is required for patentability.

In any event, in accordance with the instructions provided in the Interview Summary, the present response fulfills the requirement to file a statement of the substance of the interview.

Respectfully submitted,

FAY SHARPE LLP
